May-June 2017

Pelvic Pain at Menopause

The HSC Clinical Education Centre facilitated delivery of a practical programme for 18 **physiotherapists** to learn new skills in a safe learning environment. The programme involved simulation of manual therapy techniques to enhance the mobility of connective tissue following hysterectomy in addition to learning how to demonstrate simple, safe and effective yoga poses shown to be helpful in managing menopausal symptoms. The success of this day was reflected in very positive evaluations

Simulation Faculty Debriefing Course: Antrim 03/04/17

This was the first NISHFN Simulation faculty debriefing

course. Six candidates attended from a variety of specialties and both medical and nursing backgrounds. There was a combination of presentations and simulated scenarios to improve debriefing skills. Everyone enjoyed the course and felt it met their learning objectives. Perceived confidence in both a debrief and a difficult debrief increased. Some comments included...

Useful and relaxed learning environment

A great balance of discussion and practical

Useful course to create some structure to debrief

Thanks for a really informative and interactive day

The **Irish Association for Simulation Symposium** was held in the ASSERT Centre, Cork on 28th April. This interesting programme included key

note speaker presentations and interactive workshops. Topics included: debriefing, practical suturing, in-situ simulation, ward simulation, VR and faculty recruitment.

NISHFN are developing **Specialist Interest Groups**. The aim is to allow interested individuals in the piloted groups to discuss potential projects, share knowledge and ideas. Please contact sara.lawson@hscnci.net for Paediatrics or Mike.Morrow@hscni.net for Human Factors

The **Abstract submission deadline** for the 8th annual ASPIH conference is **12th May 2017**.
